

It is gratifying to note that along with the regular participants of the Congress, such as Kyua Barr Ne1epa, the Finnish theosophist (Helsinki) with 40 years of experience, every year new participants will join the Congress - scientists, orientalists, physicists, philosophers, teachers, doctors ... Entering the dialogue, they Zatragivaket the most pressing issues, trying to scientifically explain and confirm the truth of the knowledge given by E.P. Blavatsky in *The Secret Doctrine*.

So, for example, pediatrician Lebedev Yan Vladimirovich (St. Petersburg) told us about his practical research. A report by Khmurkin Georgy Georgievich (Moscow) on Sanskrit terminology used in the works of E.P. is very interesting. Blavatsky. Report E.M. Shabumikova "The methodological aspects of the comparative analysis of science, religion and philosophy helped to answer questions that had long worried me about the origin of the Fire and the Plan of the Types. What can I say about the speech and comments of the oriental scientist Dylykova Vilena SandZheyevna (Moscow), who pleased us with the translation of the second book "Kalachakra Tantra"!

The Round Table turned out to be very interesting and informative!

All participants in the Congress were more active in discussing the issues raised, than they showed their indifference and interest.

Many thanks to all participants and especially to the organizers of the Congress!

Thank you Evgenia Mikhailovna! I watched Congress online broadcasts both days. I really liked your report, as well as the reports of the professor from MAI S.P. Roshchupkina. The 2nd day turned out to be just "stellar" - both Kalachakra Tantra books were sent to me by mail!

I have a detailed work ahead ... For 10 years I couldn't (I didn't feel the energies of the necessary quality and purity for myself) - I began to translate the Book that Nim Schering Lama (dean of the monastery on the Temple Mount) presented to me in DardGeeling, now I have there are forces. THANK everyone for this opportunity!

Congratulations on the success of the International Theosophical Congress! I carefully listened to all the speeches and reports. I was interested, helpful and joyful. I really liked your report, although the thesis on unity in terms of culture, as it seems to me, requires clarification and development. I regret that so late in life I came to the study of Theosophy. I wish you all success in your future work.

I express my sincere gratitude to the organizers 3 International Theosophical Congress in St. Petersburg for given the opportunity to touch the wisdom of the Upper Light, pour out through the mouth of the speakers and through the very atmosphere of aspiration To the Higher knowledge leading us all to Gornye Moura, reigning Around the Congress itself and all its participants and, of course, having long-range and powerful effects on all layers of space and on all people of our planet who are now staying with us or are just about to join incarnate humanity here, In our dense layers. I admire the selfless work of the organizers of the Congress and of all who took part in its work, given the possible resistance of forces that do not wish to affirm the Higher Knowledge and the Higher Path in manifested humanity, the resistance of the Inner Imperfections of modern man, given the doubts, fears and distrust encountered on the way.

You Highly carried the flag that the Lords passed to you. I am sure that you were watched with trepidation and hope not only in many countries of the mura, as evidenced by the numerous greetings from the Theosophical lodges from around the world, but also the Lords themselves. Today, the International Theosophical Congress is an unprecedented event in the spiritual Life of the planet, something that so far apart from you, Who does not. You were able to overcome the differences and rally the minds of seekers and aspirants. The environment of the speakers was of particular interest to the real master, Tibetologist, Orientalist, Sinologist, Ph.D. Dylykova-

Parfionovich Vilena Sanjeevna, presented a report on the results of her many years of work - the translation from the Tibetan part of the ancient work "Kalachakra Tantra", which in its depth and significance becomes on a par with other ancient sources of wisdom given to people from above. The reasons for this interest are both the Outstanding personality of the author of the translation, and the text of the ancient doctrine itself, Which carries the wisdom of the Hierarchy, the wisdom of the creators of the Universe. This work is gaining popularity among people seeking, largely thanks to Vilena Sanjeevna, for which In my soul is born the most sincere gratitude and respect to the author. And although he himself was not yet familiar with this work, he already included it in his list of literature, which was obligatory for reading and perception. I want to wish Vilena Sanjeevna still the debts of the fruitful years of Life that bring light to people. Your work will be appreciated by future generations.

Conducted at a high organizational level, Congress greatly raises the prestige of Theosophy among people. Due to the general impression, organization, seriousness, thoroughness, globality and Novelty, and most importantly, the modernity and consonance of the ideas of the Congress to today's Time for Change. Due to the cordiality and fiery nature of your Spirit and the Spirit of Vladimir Vasilievich, you are in the stream of Spiritual Knowledge and you are connecting Ikhedi to Him. In general, Cool and Interesting.

I thank the organizers of the Congress, Evgenia Mikhailovna and Vladimir Vasilievich, as well as those who participated in the preparation and conduct of the Congress. Everything turned out very Solemnly and Beautifully!

I want to separately thank Evgenia Mikhailovna and Vladimir Vasilyevich 3a their work, 3a comments and very interesting topics of reports that provide a basis for understanding the Secret Doctrine, Agni Yoga and the practical application of the Doctrine in Life.

An unusual impression was made by the speech of Evgenia Mikhailovna. The report was very interesting, informative and deep in meaning.

Wonderful performance by Vladimir Vasilievich. In my opinion, very serious and instructive. Attention was drawn to working on ourselves, which we MUST do. It is very important!

I really liked the scientific reports on physics and medicine. I am glad that science has begun to seriously study the works of Elena Petrovna. The reports were interesting and informative.

A wonderful exhibition of paintings and sculptures. It can be seen that the work was done very creatively and most importantly from the heart! Beautiful music numbers. Loved the performances of the children!

At the conclusion of the congress, a Round Table was held at which the First Stanzas 2 Slokas from the Secret Doctrine book were discussed. In this discussion, I learned a lot, and a new vision of the Planes of Being opened up.

The most interesting and long-awaited moment of the event was the presentation of the book by Vilena Sandzheevna Dylykova-Parfionovich "Kalachakra-Tantra 2 volume". Many thanks to Vilena Sanjeevna for her Labor, 3a Labor for the Common Good !!!

Thanks to the beautiful Vilena Sandzheevna 3a participation in the event! The role in the history of this physically miniature Woman with a great spirit and diamond knowledge will be appreciated by the next generations. And it is difficult for us, living with her at the same time, to overestimate the results of Her works for the benefit of all mankind. Sincerely grateful!

Alla Kenich, St. Petersburg

I was lucky, as a participant in the competition of fine art and poetry, to attend the 3rd International Congress on Theosophy myself and to feel inside the great titanic work that its organizers Vladimir Vasilievich Yary and Evgeniya Mikhailovna Shabumikova contributed to the implementation of this project. And this work was done by them, despite the fact that many of us are at different levels of understanding of the Great Truth conveyed to us by the Great Lord through the selfless devotees E.P. Blavatsky Yu and E.I. Roerich. For this congress organization, many thanks go to them!

An indelible impression was made on me by the student of Yu. N. Roerich Vilena Sanjeevna Dyllykova-Parfionovich, who, despite her age, devotedly works on the continuation and completion of her Teacher's work. I listened to her rational speeches and seemed to drink water from the purest Source. I bow to her for this ...  
Larisa Mikhlina, Minsk

I want to express my respect and gratitude to Vilena Sanjeevna for her many years of work, highlighting yet another facet of Tibet's vast secret knowledge - Kalachakra Tantra.

A selfless scientist, she took the torch of science at the hands of Yurch Nikolayevich Roerich and lit the fire of a lighthouse, which illuminated the path of cognition of Cosmic wisdom in the twilight of mercantile bustle for future generations.

Having deciphered and translated into Russian this work, Vilena

Sanjeevna provided us with a unique opportunity to know the innermost secrets and laws.

Dear friends!

I sincerely and wholeheartedly thank you for organizing the 3rd International Theosophical Congress.

It's a great joy for me to realize that 6 is our country, 6 The cultural capital of St. Petersburg is held so significant, relevant global event! I'm glad to be with you since the Congress unites people of good will, who, through their activities, affirm the ideals of humanism, contribute to the creative, intellectual, spiritual and aesthetic development of personalities. I understand the meaning of human life In creative self-development, and not just in the satisfaction of physiological needs.

Therefore, our task is to help each person to realize their

mission and stimulate the disclosure of his creative potential. Only harmoniously developed people are capable of

blame the world around us, which means becoming socially relevant and happy.

Someone scares us with hell, Someone promises us paradise, but we must

to understand that Hell and Paradise are already inside us, in our consciousness. AND

it depends on us where we should be. In hell or heaven.

Must be

do not pay attention to those who are not ready to accept us

as we are. You don't have to prove anything to anyone ambitions and statuses are all vanity. Each of us

creates his own

peace and the greatest good, when this world is

harmonious

coexist in the universe of human illusions.

I wish you all peace over your head, and most importantly - peace in your head! And as the motto says: "Do what you must and be what happens!".
