

MEMBER OF THE FEDERATION COUNCIL
OF THE FEDERAL MEETING OF THE RUSSIAN FEDERATION

st. B. Dmitrovka, 26, Moscow, 103426

November 17, 2019

No.70-02.225/AK

**To the organizers and participants of the III
International 144th Theosophical Congress
the anniversary of the founding of the
Theosophical Society in Saint Petersburg**

I greet the organizers, participants and guests of the Congress!

I greatly appreciate your efforts to support the initiatives of the Theosophia Fund for the Promotion of Socially Important and Educational Activities.

I express deep confidence in the importance of research on theosophical works in various areas of society, practical knowledge of the study of theosophy, scientific research on the works of Helena Petrovna Blavatsky in the evolutionally significant work *The Secret Doctrine* and other scientific and publishing works of our Great compatriot, as well as the writings and authors referred to by H.P. Blavatsky in her writings.

The participation of young scientists, representatives of the fields of science, medicine, education and culture for the exchange of experience in the implementation of new socially significant programs aimed at the ideas of humanism, tolerance, morality, mutual assistance, regardless of nationality of religion, representatives of other areas based on spiritual moral education of society gives confidence in the evolutionary significance of expanding consciousness and affirming cultural priorities in society.

I wish all participants of the Congress good health, success in research and new achievements in cultural and creative activities.

Yours faithfully,
Member of the Federation Council
Federal Assembly
Russian Federation

A.V. Kondratyev
