Regarding the Provision of Information

Dear Alexander Sergeyevich!

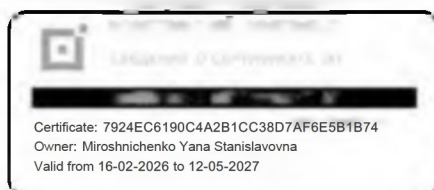

The Ministry of Culture of the Luhansk People's Republic has reviewed your letter regarding support for the socially significant project "White Jaguars" (hereinafter referred to as the Project).

We thank you for your initiative in collaborating with us and for your active participation in identifying and supporting gifted children. We are convinced that supporting young talent is not merely a good deed, but a key factor in the flourishing of culture and the arts in our region. Initiatives such as the "White Jaguars" project not only help to reveal and develop children's creative potential, but also make an invaluable contribution to their patriotic upbringing and the formation of strong spiritual and moral foundations.

We would like to note that your project opens the door to the world of creativity for children with special needs as well. This is a unique opportunity for these children to unlock their creative potential, feel part of a shared endeavor, create freely, and actively interact with other participants, overcoming any social barriers.

In light of the above, we would like to inform you that all interested parties have been notified of the opportunity to participate in the Project.
