

**STATE DUMA FEDERAL
ASSEMBLY OF THE RUSSIAN FEDERATION**

Ref. No. 1102/2026-1-PBYA

dated February 11, 2026.

Theosophy Support and Development Fund

Dear colleagues!

On behalf of Anatoly Evgenievich Karpov, member of the State Duma of the Federal Assembly of the Russian Federation and multiple world chess champion, I would like to express my support for the socially significant project “White Jaguars.”

Anatoly Yevgenyevich, whose social and sporting activities are inextricably linked to the development of strategic thinking and intellectual potential in young people, highly values the humanistic and educational mission of your project. White Jaguars addresses the most important issues of our time: developing creativity and leadership skills in children, strengthening mutual understanding between generations, and fostering a sense of patriotism through culture and dialogue.

The principles of the project—cooperation, tolerance, and the pursuit of harmony—are fully consistent with the values that Deputy Karpov A.E. upholds in his work. We are confident that the White Jaguars interactive platform will become an effective tool in the implementation of state policy in the field of education, culture, and the upbringing of the younger generation.

I wish the White Jaguars project dynamic development, wide recognition, and the successful achievement of all its goals for the benefit of our country's future.

Sincerely,
Assistant to a Member of
the State Duma of the Russian Federation
V.A. Sokolov
